VIRO Rubbish Chute System

The safe way to get rubbish, rubble and general debris from high level work areas.

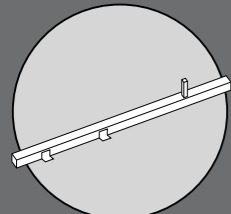

Produced from high quality HDPE (High Density Polyethylene) and manufactured to the highest specifications. Our rubbish chutes are designed to resist abrasions, withstand heavy impacts and maintain rigidity in extreme weather conditions.

Benefits :

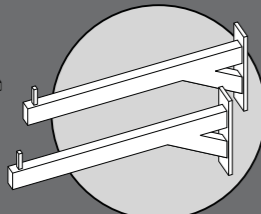

1. Easy to erect
2. Will withstand extreme temperatures
3. High resistance to abrasions
4. Produced from prime quality material
5. Complete safety
6. Economical

M - Hopper

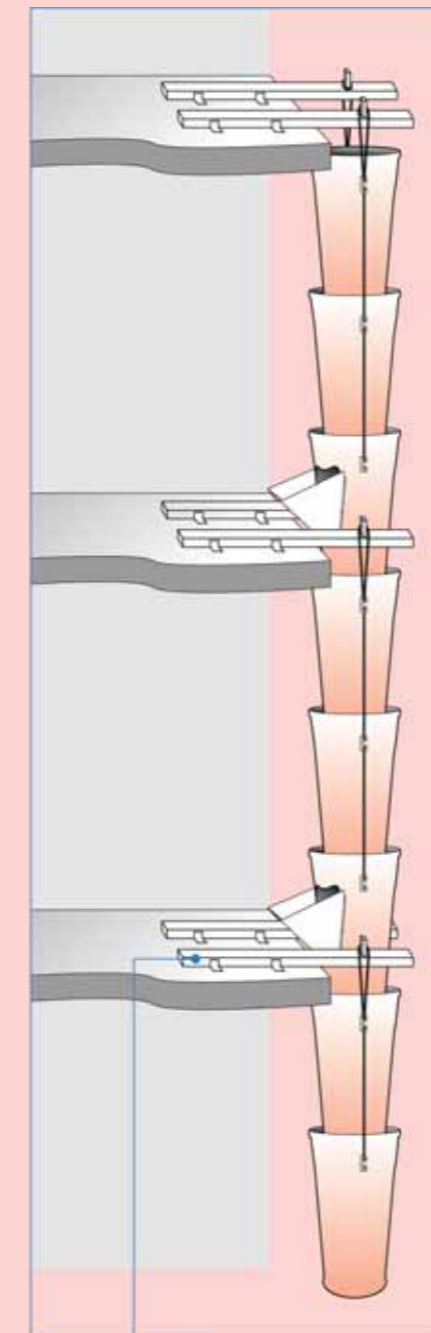

- Convenient
- Durable
- Affordable

Technical Data

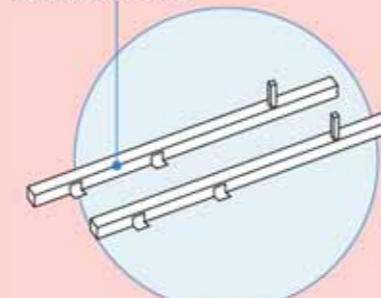

Straight Chute	
Material	HDPE
Colour	Orange
Total Length	1170 mm
Working Length	1070 mm
Diameter (Top)	540 mm
Diameter (Bottom)	460 mm
Impact Strength	27.6 KGF-CM/CM2
Tensile Strength	276.2 KGF/CM2
Elastic Coefficient	8000 KGF/CM2
Bending Strength	250.3 KGF/CM2
Moisture Absorption	<0.01%
Rockwell Hardness	Shore 70D
Specific Gravity	0.95
M-Hopper	
Material	HDPE
Body	Steel intake
Weight	13 Kgs
